
iStore meets Holiday Camps

ONLINE WORKSHOPS

28 June - 15 July

Powered by THINK AHEAD education solutions

Prepare your child to be the worlds' next best App Developer.

Think Ahead delivers the ultimate experience in **coding & robotics** for **students**.

Our engaging online holiday camps are perfectly tailored to the age and experience of our students and cover **Apple's coding language, Swift.**

For the **upcoming** Think Ahead holiday activities, **choose** between **one or more** of the **following activities**:

Grade 3 - 5

Virtual Robotics for Juniors

Students plan and design their own virtual robot applying coding concepts and skills to bring it to life.
